

[Global Automotive Sunroof Market](#)

Summary

Pune, India, August, 2018 /MRFR Press Release/- Market Research Future published a half-cooked research report on global automotive sunroof market. The Automotive Sunroof market is expected to expand at ~8.96% CAGR during the period 2018 to 2023.

[Global Automotive Sunroof Market Overview](#)

An automotive sunroof is a window-like movable panel that is installed on the roof of a vehicle, which allows natural light and fresh air to enter the vehicle. Sunroofs can be operated manually or automatically and come in various shapes, sizes, and styles, according to the type of the vehicle. Additionally, sunroofs have various benefits including rich appearance and wind noise prevention.

On the basis of type, the market is classified into inbuilt sunroof, spoiler sunroof, panoramic sunroof, pop-up sunroof, and others. The inbuilt sunroof segment is estimated to dominate the market during the forecast period, owing to the emergence of highly protective automotive glass panels in order to keep out the heat and UV rays, is anticipated to raise the inbuilt sunroof demand during the forecast period.
